**VIEL**  
PLASTIQUES

## INNOVATIVE SYSTEM EASY CLOSING / OPENING

Made in France, **OpenTip®** is an innovative, efficient and economical opening system for bags from 750g.

Composed of a plastic pouring spout, **OpenTip®** improves the convenience of your bag and brings to the end user an ease and precision of pouring while guaranteeing a good protection of the product in the absence of smell.

Adaptable to different products and bags, **VIEL Plastiques** systems help you and the end user to maintain the quality of your product.

### WITH THE OPENTIP® :

- More accurate pouring
- Better product conservation
- No odor leakage
- Recyclable with compatible bag

cat litter

dog and cat food

fertilizer

coating

cereals

and many more other products..
